

Structured Settlement Foreign Wire Program

Frequently Asked Questions

What is the Structured Settlement Foreign Wire Program (FWP)?

The Structured Settlement Foreign Wire Program is a safe, secure and simple method to overcome the barriers associated with non-U.S. citizens who want to receive the benefits of a structured settlement annuity.

Am I a candidate for the FWP?

The FWP is your solution if you are experiencing any of the following at the time of settlement:

- You are not a citizen of the United States and are experiencing difficulty receiving your structured annuity payments
- You are having difficulty establishing a bank account in the United States
- You are unable to effectively forward settlement proceeds to a non-U.S. bank in your home country

Is the FWP safe?

Yes, the electronic transmittal of structured annuity payments reduces the possibility of theft or wrongdoing often associated with checks.

How secure is the FWP?

Payments are disbursed according to your or a personal representative's specific instructions. Direct deposits and wires remain in effect for the duration of the periodic payments or until you or your attorney notifies Evolve Bank & Trust in writing of any change.

How difficult is it to establish the FWP process?

The process is easy:

- The life insurance company direct deposits the structured annuity payments into the IFS Foreign Wire Trust Master Account on your behalf at Evolve Bank & Trust on the scheduled payment date.
- Then payments are wired to your bank account (at the bank of your choosing in your home country) within 5 business days of receipt.

Your settlement consultant will walk you and your attorney through the necessary steps and paperwork to make the FWP a success for you.

Who do I contact if I am interested in or have questions about the FWP?

Settlement Consultant at info@sfainc.com or 800-638-5890.
